

📍  
*France*

There is more to France than art, barquettes, and popular tourist sites. When visiting the country, you don't want to miss out on the vineyards. You can hardly call it a vacation when your family members are missing out on activities that panders to their interests, or when you don't have some alone time with your partner.

In a spacious Large Suite and terrace, The Family Life package offers more than just breakfast for a family of four. Guests can opt to go hiking, cycling in the forest, swimming in the heated indoor and outdoor pools, and visiting nearby grounds:

the Jardin des Abeilles (Bee garden), a small farm, and a kitchen garden brimming with fruits, vegetables, and herbs. With advanced booking, guests can arrange for a sports coach to train their children to swim, and play tennis, as well as various other sports.

Babysitters can be booked 48 hours in advance, leaving guests to spend some time on their own attending a Patisserie workshop (only available during the Christmas season). The service is also great for parents who want to spend some time relaxing alone. Otherwise, the concierge gladly provides colouring books, storybooks, and board games for keeping the little ones occupied. Necessities for newborns are also available; these include a baby monitor, bottle warmer, and a changing mat.

As these packages are seasonal, it's recommended that prospective guests check on their availability. Aside from the beautiful vineyards and lake-filled gardens, guests are also treated to a panoramic cigar bar and a spa offering grape-based therapies. The choice of rooms and suites available include L'il aux Oiseaux Suite on stilts, which provides guests with a view of the Les Sources de Caudalie lake.
